ABOUT ME

A versatile Full Stack Developer with close four years of experience in creating and deploying modern, scalable web applications. Skilled in the complete development life cycle utilizing TypeScript, Go, Python, and PHP, with extensive knowledge of frameworks including React, Vue, Next.js, Express.js, Echo, and Fiber. Demonstrated ability to deliver strong solutions, enhance performance, and collaborate effectively within agile teams. I am seeking a mid level position to utilize and further develop my technical and leadership skills.

EDUCATION

University of San Jose-Recoletos inc.
Bachelor's Degree in Biology

EXPERIENCE

2024 - Present	Full-stack Developer
Codexbloc	- Developed full-stack web applications using Next.js and Vue.js for dynamic front-end experiences. - Architected and built scalable back-end services and RESTful APIs with Go and Node.js. - Implemented real-time features using web sockets with Express and Fiber. - Containerized applications using Docker to ensure consistent development environment.
